

Listing of the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1. (Currently Amended) A process for producing a displacement assay on a clear and flexible polymer film comprising the steps of:

- a) producing a heat-killed antigen or facsimile antigen;
 - b) immobilizing said antigen or facsimile antigen upon a clear and flexible polymer film;
 - c) binding a ~~labeled~~ pigmented antibody to said antigen or facsimile antigen; and
 - d) washing away any unbound antigen or facsimile antigen;
- [[and]]

~~e) adding a color producing agent which evidences color upon binding with said labeled antibody;~~

wherein a presence of color evidences the presence of said ~~labeled~~ pigmented antibody, and binding of a contaminant displaces said pigmented antibody, whereby an absence of color signals binding of the contaminant.

Claim 2. (Previously Presented) The process of claim 1 wherein said antibody is labeled with horseradish peroxidase.

Application No. 10/767,464

Response to Office Action of September 11, 2006

Claim 3. (Previously Presented) The process of claim 1 wherein said color producing agent is tetramethyl benzidine (TMB).

Claim 4. (Previously Presented) The process of claim 1 wherein said labeled antibody is bound to said antigen or facsimile within a water soluble varnish.
